

# EGH404 Portfolio (Part 3)

The EGH404 Portfolio 3 is based on an individual research question that can be obtained at:

[www.egh404.com](http://www.egh404.com)

To answer the research question you are required to perform the following tasks.

## Tasks:

1. Identify suitable, public available data sources through a web search
2. Interrogate the found data through analysis methods practised in previous portfolios
3. Extract results
4. Present the results in an appropriate way using tables, graphs, maps...

Based on these tasks compile a report for submission.

## Submission:

Submit a report of maximum 5 pages that includes the following:

- Title page stating the research question, your name and student number, and a one paragraph summary of the findings
- A data collection section that outlines the datasets you found and used for the report
- A data analysis section in which you provide details on how you used the data for your report
- A results section that outlines your findings with accompanying tables, graphs and maps as fit
